

## **Pre-Surgery Home Supplies**

**It is very important that you have the following home supplies available before surgery.**

1. All medications filled
2. Large Towels (for showering and sitting on furniture)
3. Kotex Pads (to cover incision areas for first few days of heavy drainage)
4. Ace Bandage (to secure pads while you wash compression garment)
5. Neosporin (to help heal incision and prevent infection, massage into incisions daily for 5 days )
6. Anti-Bacterial Soap (for showering and washing incision areas)
7. Fluids (for hydration and taking meds)

**We DO NOT advise waiting until after surgery to get these supplies.**
